Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systematized that only a small margin is left in sawing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near Rose Place, or at the stores of M. S. Jackson, 3d Exchange-st, and at either place any article may be obtained in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Boards ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit customers, both in quality and price, and so well organized in the business that no man should now think of building in the old and slow and imperfect method.

called the Champion, of which there are seven sizes—two portable and five Brick, suited to all varieties of families, from the smallest private, house to the largest class Hotel. The Champion can be set with one or two ovens, also hot water and hot air registers. The ovens are so located and so constructed, as to bake most perfectly with a small consumption of fuel. Also, Winchester's Hot Air Radiator, claims particular attention, being the handsomest and most economical Stove ever offered to the public. There are duplexes, adapted to Parlors, Sitting Rooms, Chambers, School Houses, Halls, Stores, and in fact to all classes of rooms designed to be heated by a Stove. Some eight or ten hundred of the Radiators were sold last season, giving entire satisfaction and having made some improvements for the present season, we now offer it, feeling confident it cannot be excelled by any other Stove.

Also, Rice's Celebrated Hot Air Furnace may be found here, together with the Radiating Portable Furnace, and a good variety of the most popular Cooking, Parlor and Office stoves, all for sale at the lowest market prices at wholesale or retail.

Muriate of Lime.

THE high price of the special Manures, Guano, &c., directed to the composition of a fertilizer, all which should combine all its good qualities, but whose price should place it within the reach of the poorest of the cultivators of the soil. The increased demand on last season together with the voluntary testimonials of many who have proved its efficacy, leads the manufacturer to believe that the object has been obtained in the Muriate of Lime, and has induced him to extend the facilities for its manufacture. It has been tried upon almost every variety of soil, but is generally adapted to Cereal Plants, Grass Corn, Wheat, &c.

A pamphlet, with testimonials, showing its effects upon the Grape Vine, Corn, Potatoes, in addition to Rot, as a preservative Straw berry, Ruta Baga and Turnip of all kinds, Beans, Peas, and all pod bearing plants, its effects in destroying the worms and other insects, its great value to the Apple Tree, also its effects on Grass Land, reducing a better crop the third year than the first in a word being permanent in its effect, whereas Guano has to be applied every year,—will be forwarded to any address, and all orders by mail, accompanied by the cash, punctually attended to. CHEAP AND SAFE LIGHT

NEWELL'S PATENT SAFETY LAMP AND LAMP FEEDER. Warranted to prevent all accidents from the use of Burning Fluid, Patent Oil, Rosin Oil, Camphene and all other explosive compounds used for the production of light. This invention is applied to Common Fluid, Solar and Camphene Lamps, Lamp Feeders, Fluid Holders, Lanterns, &c., &c.

We respectfully invite the attention of the public to Newell's improved Solar Fluid Lamps in the round form, which gives a steady, brilliant flame, the nearest to gas that has ever been produced, and cost of burning being less than one cent an hour.

These Lamps are particularly adapted for Churches, Hotels, Factories, Stores and Parlors. Oil Solars can be altered using the same shade. Common Fluid Lamps can be changed to Safety Fluid Lamps.

Professor Silliman says, "All the so named burning fluids are explosive, whether liquid or colored, and to pretend that they are not so is to deceive the public—that with the protection above named, it should have no hesitation to use it, and I do with entire confidence recommend it to my friends and others who consult me on the subject, always protending against the use of fluid, which has produced so many distressing and fatal results.

These Lamps have been extensively used in all parts of the United States for more than four years, and there has not the slightest accident occurred with them. They have the sanction of the greatest scientific skill of the country, such as Prof. B. Silliman, Prof. J. Robb, Dr. Charles T. Jackson, Dr. A. A. Hayes, &c., &c.

We keep constantly on hand the best Burning Fluids.

No. 35 Broad Street, Boston.

CARD.—Boston, July 1, 1856.—The subscriber, having for several years past manufactured Varnishes for Messrs. Stimson & Co., of Newark, N. J., takes this method of informing his former customers and the trade and consumers of Varnishes, that he is now prepared and interested with Messrs. Stimson, Valentine & Co., of Boston, in their Varnish establishment, and with pleasure would solicit for the firm the patronage of its friends and the public.

JOHN BABCOCK.

DISEASES SUCCESSFULLY TREATED.

REMARKABLE CURES PERFORMED.—*Words of Admiration and Caution.*—Encouraged by the very liberal patronage bestowed upon me by my friends and the public, during the past few years, and the extraordinary success which has attended my efforts in the cure of the sick, I am determined not to relax my exertions further than fairness, but rather to impose myself for renewed labors in my undertaking.

That diseases heretofore considered incurable can be conquered, I have the strong proof in my own experience. To quote a few particulars of this assertion Mrs. H., a sufferer of vomiting of blood, after having been given up by her family physician to die. Mr. T., cured of a violent eruption over his head and parts of the body and pronounced incurable by one of the best physicians in Norfolk County. Mr. S. cured of consumption. Mr. B. of liver and kidney complaint. Mrs. T. of cancer in the breast as large as a quart bowl. Mr. B. of secondary symptoms, after having been brought near the grave under the treatment of other respectable physicians. Miss M. of consumption. Mr. C. of very alarming consumptive symptoms, and many others with whom cases and full particulars I will give you one the full name of any of the above, if I may happily in meet my office.

Hope, then, is for the Sic.—I do not make a business of selling medicines to sick, but only for a speedy and sure cure upon personal application to prescribe the medicines myself. Persons can consult by letters and have their medicines sent by mail or express.

Advice I am always glad to give freely, and persons calling upon me need not feel under any obligation to take medicine, as I positively choose to do so.

Words of Caution.—This is an age of new things, among much good there is much humbug. Be not over-anxious to be experimented on. For ten years I have found my medicines to be safe and effectual, and the public may rely that they will do what is promised for them.

I receive many calls in hopeless cases. If a person gives my remedies a fair trial without receiving the promised benefit, will make rewards cured by some other physician, I will refund all they have paid me.

A full description of my specific diseases and many certificates of remarkable cures, together with much useful information, can be had by applying at my office. My book sent by mail on the receipt of a postage stamp.

Dr. E. Howland, my consulting card—

DR. SPEAR, INDIAN DOCTOR, so much celebrated for a remarkable cure, may be consulted at his office, No. 18 Kneeland Street, from 8 A. M. to 9 P. M., upon all diseases and conditions of the human system, free of charge.

Also, Dr. Spear gives special attention to chronic forms of disease, Humors in the Blood, Dyspepsia, Consumption, Skin diseases, Urinary difficulties, abnormal condition of the Kidneys, Liver and Heart, Rheumatism, all female diseases, especially Prolapsus Uteri, and unnatural suppressions, weak nerves and debilities.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his remedies.

Dr. Spear will warrant a cure in every curable case. After giving his advice, if a cure is not effected, he will pay any other physician who will effect a cure, his bill not exceeding $100. Persons at a distance can consult him by letter, by enclosing a stamp to pay the postage.

Rooms---No. 1 Main Street.

THE subscribers have the pleasure of announcing to the citizens of Bangor and vicinity, that they have recently opened a new and spacious suite of Rooms in the city for making Ambrotypes.

The genuine Ambrotype, (among other things that distinguish it from all other pictures,) is taken upon the plate glass, upon which is placed another glass, the two being united by an India rubber gum, thus securing it from dust, dampness) or liability to damage from any source—The pictures are not reversed, are free from that unpleasant reflection peculiar to the Daguerreotype, and are the only photographic pictures that do not change.

Those having pictures they wish to preserve, can have them copied by this process.

The public are respectfully invited to examine the pictures at our Rooms,

Entrance next door North of No. 1 Main Street.

N. B. The genuine Ambrotype can be obtained only at our Rooms.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in construction, and workmanship. A perfect sewing machine if kept employed affords a clear profit of $1200 a year, but an imperfect one is a cause of constant vexation and loss. The certain *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fine and delicate construction, are recommended by other manufacturers. Such machines are liable to catch the eye, act to perform substantial work. The truth is, family sewing machines ought to be a stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

THE ELECTION

In consequence of the storm last night, our returns from the West, up to 1 o'clock this morning, were not sufficient to enable us to form a decided opinion as to the general result. We have enough, however, to make the following announcements with confidence:

Maine for Fremont by about 25 000 majority.

New Hampshire for Fremont, by about 5000 majority.

Massachusetts for Fremont by a large plurality.

Vermont for Fremont by probably 20,000.

Connecticut for Fremont by a large maj.

Rhode Island for Fremont.

[LATER returns indicate Pennsylvania for Buchanan. We cannot give details in season for the mails this morning.]

We can point proudly to the vote of Bangor, of Penobscot and of MAINE. All honor to the noble Republicans of the Pine Tree State.— They have come manfully up to the work amid a general feeling of discouragement in view of the State elections in Pennsylvania and Indiana, and have done THEIR WHOLE DUTY. They have stood firm by their principles, and worked as well for the cause of freedom as if they had been assured of victory in the Union.

We point with pride and pleasure to the figures. Bangor gives a majority of 826 for Fremont, and a gain since September of 146. Penobscot so far has gained about in the same proportion,—some towns, as Brewer, Hampden, Orrington, Carmel, Orono, Old town, Etna, &c. doing even better.

We have returns from 84 towns in Maine, which give Fremont 26,365, Buchanan 14,332 and the Fillmore or Scattering ticket 1739.— The same towns in September gave a total of 3,204 votes, showing a decrease now of nearly 4000 on the total vote, but a net Republican gain of about 1800, to which we add reported gains of 110 in Fairfield, 60 in Carmel, 30 in Pittsfield, 25 in Etna.

At this rate the clear majority for Fremont in Maine will go up to very near TWENTY FIVE THOUSAND.

The vote for Patten, in the towns we have heard from was 3400. For the Fillmore or scattering ticket it is now 1730.

To CONSUMERS OF PICKLES. The attention of our readers is directed to the advertisement of William Underwood & Co., in our paper of to-day. Coming as it does from the oldest and most celebrated House in this line, in the Union, we need hardly give our testimony as to the piquant flavor of these extra Pickles, which so refreshingly excite the appetite and good humor of one's stomach.

ENTERPRISE.—An iron steamboat has just been finished by the Novelty Iron Works, to run on the river Maule, in Chili, between the city of Constitucion, on the Pacific, and the city of Talca in the interior. (CONCLUDED.)

NEWARK, Oct. 29, 1856.

WEDNESDAY EVENING.

The session was occupied in the discussion of the report of the special committee on the manner of conducting the missions of the Board.

Dr. Bacon of New Haven, and Dr. Winslow of the Madras Mission, while agreeing in general with the report, thought there might be danger of leaving an impression on the minds of others, that education was not important.— The Committee, the Missionaries, and the Board, all seemed to agree that the preaching of the Gospel in the Native language, was the first instrumentality to be employed, and the Educational interests, though important especially the teaching of English to the common people, secondary. It was a question of proportion only.

The report was re-committed to the same committee for revision.

Further reference of the several parts of the Prudential Committee's report were made.— The following are the chairmen of the several Committees:

Preacher and Place of Meeting next year, Dr. Thomas Shepard of Rhode Island.

African Mission, Dr. Hawes. Dr. Chickering of Maine is also a member.

Syrian & Assyrian Missions, Judge Jessup. Rev. John O. Fiske is a member from Maine.

Nestorian Mission, Dr. Sweetsir. Rev. John Maltby from Maine is a member of this Committee.

Mahratta Mission, Dr. Bacon.

Madura and Arcot Mission, Dr. B. C. Taylor.

China Mission, Dr. Lindley.

Sandwich Island Mission, Dr. Dwight of Maine.

South Western Indians, Dr. Aiken.

North Western Indians, Dr. Porter.

THURSDAY MORNING.

A Devotional meeting was held at 6½ o'clock, conducted by Dr. Spring of New York. Dr. Adams of New York, stated as an interesting fact, that David Brainard was consecrated in this place to the Missionary work one hundred and twelve years ago, and that here also, nineteen years ago was held the annual meeting of the Board, in the entire room, when there were 165 members present, which was then considered a large attendance. At that meeting was broached the same topic which was the chief subject of discussion this year.

Dr. Shepard of R. I., reported that the next place of meeting be in Providence. The preacher, Dr. Thompson of Buffalo. Alternate, Dr. Shepard of Bangor.

Dr. Dwight reported on the Sandwich Island Mission.

Dr. Pomroy spoke of the Missionary Packet—referring appropriately to the fact that Christ, when on earth had a ship to wait on him.— Capt. Samuel G. Moses is to have command of the vessel, and it is to be launched the first of November.

The report presented yesterday by Dr. Beman, and referred back to the Committee, was again presented for the action of the Board.

The amendments reported, referred chiefly to the unanimity of opinion between the Committee, the Missionaries, and members of the Board, on the Scriptural method of making known to the Pagan nations the way of life and salvation, and the preaching of the Gospel.

Some objections were made to referring in the report to the sneering and infidel views on missions entertained by the Westminster Review, and to an article in the North British Review but it was not stricken out. An additional clause was added to this part of the report, showing that the Board its Missionaries, and the friends of Missions in this country heartily repudiate such views.

The resolutions and recommendations of the Committee were unanimously adopted.

Thanks were passed to the deputation to India and to the special committee who have been considering their report, for their valuable and diligent labors.

There was considerable sensation, when a reference was made in a speech of Dr. Beman's to the desirableness of a free discussion of the subject of his report. He was in favor of it—free speech, free discussion—and everything else that is free and good.

THURSDAY AFTERNOON.

The Board celebrated the Lord's Supper. In the exercises at the 1st Presbyterian Church, Drs. Hogarth, Barnes, Dickinson, Sweetsir, Stearns, and Hopkins took part.

At the Dutch Reformed Church, the exercises were conducted by returned Missionaries, viz: Mr. Worcester of the Cherokee Mission, Dr. Winslow of the Madras Mission, Mr. Riggs of the Constantinople, and Mr. Beadle formerly of the Syrian Mission. At this church were gathered among others, the Missionaries and those under appointment with their relatives and friends.

At the close, the Board proceeded to the choice of officers for the ensuing year. The old Board were re-elected, with the addition of Isaac Ferris, D. D., and Walter S. Griffith, Esq., from the Presbyterian and Dutch Reformed Churches.

In place of the two corporate members from Maine who have died during the past year, Rev. G. E. Adams, D. D. of Brunswick, and W. W. Thomas, Esq. of Portland, were elected.

Several of the Chairmen of Committees made reports respecting the portions of Prudential Committee's Annual Communication assigned to them.

THURSDAY EVENING.

The Assistant Recording Secretary reported that 103 corporate and 434 honorary members were present at this meeting of the American Board. A larger number than at the meeting in Utica the last year.

Votes of thanks were passed to the families and churches of Newark. More than 1600 have been provided for by the Committee, and more by friends coming by invitation.

The Committee for the Treasurer's accounts reported, and the subject of funds to carry on the operations of the Board, occupied the remainder of the evening. Reasons for sustaining liberally and promptly the work of missions were presented, and eloquently and forcibly sustained, by Chancellor Walworth, W. H. Brown, Esq., of Chicago, Dr. Anderson, Chas. Stoddard, Esq., Henry Hill, Esq. Dr. Smith, Dr. Pomroy, and others.

Very great satisfaction was given by an address from Rev. D. A. Poor, and Dr. Winslow, and an extract read by Dr. Adams from a letter of Dr. Spaulding, (which was unexpectedly received,) in which they express great confidence in the Board and its Prudential Committee, and their determination to unite heartily in sustaining its operations. These gentlemen had previously taken an active part in objecting to the policy of the Prudential Committee.

FRIDAY MORNING.

The Board met at 8½ o'clock, and prayer was offered by Dr. Taylor of Bergen.

Reports were read on the several parts of the Prudential Committee's Annual Report, not before presented.

The Board adopted a resolution recommending the churches to increase their donations twenty per cent, and their sympathy with and confidence in the Missionaries.

Closing remarks were made by Hon. T. Freylinghuysen, President, expressive of the gratitude felt for the peace and Christian harmony which had characterized this session of the Board, and to the people of Newark for their generous hospitality.

Dr. Stearns of Newark, Pastor of the Church where the Board met, responded, bidding the Board and their visitors an affectionate farewell.

A hymn of Christian fellowship was sung, and the Benediction pronounced by Dr. Hawes of Hartford. D.

MARIAMNE, OR THE QUEEN'S FATE. By "E. H. M." New York: Layton & Burdick, 1856.

We have read with pleasure, this thrilling story of the beautiful but unfortunate Queen of Herod, the bloody tyrant of Judea. Every reader of the New Testament history, will be interested in this book—containing as it does a detailed narrative of the lives of some of the most prominent actors in those great events which preceded the advent of Christ and the destruction of Jerusalem. The oppressive government and awful wickedness of Herod—his tyranny over the people and immense squandering of the public treasures—his vast expenditures upon gladiatorial combats and the Olympic games, which are graphically described—the cruel treatment and final murder of his Queen and her relatives—as well as his own wavering fortunes as affected by the influence of the celebrated Cleopatra with Mark Antony, and by the contest for the empire of the Roman world between Antony and Octavius Cæsar—furnish a series of great events which give to the story an interest not often connected with this work of its kind.

A terrible accident happened to the Bay State, of the Fall River line, on her passage from New York Friday evening, when off Huntington Light. Her walking beam broke and a piece of it, weighing some tons, still attached to the machinery, was thrashed down through the cabin to the keelson. The cylinder head was burst off, and the escaped steam instantly killed the daughter of Bradford Blanchard of Williamsborough, N. Y., a girl of ten years of age.

Mr. A. J. Baldwin, of the firm of Brewer & Baldwin, proprietors of the Telegraph line, of Yarmouthport, and Mr. J. B. Flagg of Exeter, N. H., were badly scalded.

A flour laden vessel recently sailed from Charleston, S. C., for Barcelona, being the first shipment of breadstuffs from Charleston to Spain; though but one of many cargoes recently shipped from the United States to that country and Portugal—the harvests there being deficient this season. Both Spain and Portugal have heretofore been large exporters of grain.

AID FOR KANSAS. The Boston Advertiser states that information has just been received that thirty bales of clothing sent from the east for sufferers in Kansas, have arrived at Lawrence, and been distributed. Sixty cases more were at Leavenworth and would reach Lawrence in a day or two. One hundred and ninety-seven cases of clothing have gone forward from the Boston office.

SALE OF A SHIP.—Ship Sea Dog, built at Bath, Me., last spring, 670 tons, a large carrier, well found and ready for sea, was sold for $25,000 last week, to parties in Newburyport, viz:—Sumner, Swasey & Currier 1-4; Eben F. Stone 1-4; Richard Plumer and J. T. Page 1-4; Capt. Geo. L. Rogers 1-4.

We are requested to state that the Home Course of Lectures, advertised to commence on Thursday evening, is postponed until further notice.

FORGERY.—Our usually quiet village has been agitated for a few days past by the detection, arrest, and subsequent escape, of one of our citizens for the crime of forgery. Upon his own confession, he has been engaged in the dangerous business for three years. He has forged the names of quite a number of our best business men; and when the paper became due, has taken it up with other equally worthless. The whole amount, now out is about $3000.—[Brunswick Tel.

Two gentlemen walking together were talking of the senses, seeing, feeling and the like. One remarked that his sense of hearing was remarkable for its acuteness, while the other was not wonderfully endowed. In this respect, but observed that his vision was wonderful.— "Now to illustrate," said he, "I can see a fly on the spire of yonder church." The other, looking sharply at the place indicated—"Ah!" said he, "I can't see him, but I can hear him step."

In a speech before the American bible union at its recent anniversary, Rev. Dr. Lynd of Kentucky made this rather sweeping assertion:

"While it was true that these Scriptures, (the received version) contained truth enough to save souls, it was also true that they contained error enough to ruin souls." This is Southern theology.

Important Arrest of Incendiaries.

The Police of our City have for some time past been on the track of some persons, who were supposed to have been connected with the incendiary attempts which have been made in our city during the past six months, and have at length succeeded in capturing the whole gang, consisting of seven. Their names are as follows:—Thomas Douglass, Luke Makin, Isaac Pendergrass, Josiah B. Gould, and Horace Worcester of this City, and Samuel Burns and John Burns, of St. John, N. B.

About a fortnight since the horse and chaise of Dr. Robinson was stolen in this city, and were traced to Scarboro. On the same night a barn in Scarboro was set on fire. On Thursday night of last week, the horse and chaise of Dr. Dana was taken from before the door of his dwelling house in this city, and carried off. Deputy Marshal Brady was put upon the track, and he traced it to Scarboro, where, upon the same night a school house was set on fire. Mr. Brady, after diligent efforts, succeeded in arresting John Burns and Horace Worcester as the thieves, the former of whom stole the horse and chaise of Dr. Robinson, while both were concerned in taking Dr. Dana's.

After the arrest, on being charged with setting fire to the buildings in Scarboro, one of them made a confession as to the origin of some of the numerous fires which occurred in this city, and disclosed the names of his accomplices in the transactions. The police wisely kept the matter quiet until they had succeeded in arresting the whole gang, which was consummated yesterday. The last one, Douglass, having been arrested at Calais yesterday morning. Samuel Burns was arrested in Bangor. Makin was arrested by Brady in this city, and Pendergrass and Gould were arrested by Deputy Marshal Mason, assisted by officer Willey, on Clapboard Island. The two latter attempted to escape, but Mason gave chase to them in a boat, and after a hard run of five or six miles, succeeded in capturing them.

From the disclosures made, it seems that this band of scoundrels were bent upon the destruction of property in this city and vicinity, for what purpose, other than stealing remains to be seen. John Burns fired the school house in Scarboro, and with Worcester, also set fire to the barn in that place last Thursday night. Makin fired Judge Paine's barn on Park street, and Mr. Orrin Ring's barn on Cedar street. Pendergrass set fire to E. V. Bartol's new house on Danforth street. Samuel Burns fired Mr. Skillings barn in Cape Elizabeth.

John Burns, Pendergrass and Douglass set fire to Clark's barn at Libby's Corner and the same trio set fire to the new house of Mr. Cook on State street, the same night on which Judge Paine's barn was burned. Samuel Burns and Douglass set fire to the Day house on Danforth street, and Douglass set fire, to Tuttle's Rope-walk, Worcester being in company with him. Burns set fire to Simonton's barn on Danforth street. Gould, it is said, was present when most of the fires were set.

The prisoners are all over 21 years of age, except Worcester and Makin. From the confessions made by two or three of them, it appears that they were all leagued together in their destructive purposes.

These are the most important arrests which have ever been made in our city, for no calculations could be made upon the safety of our dwellings, while such a gang of scoundrels were at large. Great credit is due to Officers Brady and Mason for their indefatigable efforts to arrest these villains, and for the successful manner in which they managed the whole business.

The examination of the prisoners will not take place until the arrival of Douglass from Calais, which will probably be on Friday next. [Portland Advertiser.]

MONETARY AFFAIRS.—BOSTON, Nov. 3d. Considerable anxiety is expressed in money circles in reference to the unfavorable accounts from Europe, and there is an evident reluctance on the part of monied men to lock up capital for any length of time. This feeling restricted the negotiation of paper during the last week, and discount rates turned in favor of lenders, although in fact there is but a limited demand for money. Notes of the best grade sold at from 8 1-4 to 9 per cent; fair signatures from 9 to 10.

The Bank of England, according to its last weekly returns, had lost the large sum £644,190 in bullion, reducing the amount to £10,140,097. The drain of gold to the Continent continues undiminished, the Bank of France buying largely, and every arrival at England being rapidly absorbed for export. Under such circumstances the directors of the Bank of England have adopted further restrictive measures, first limiting advances on stock to 7 days instead of fourteen, and in two days afterwards refusing altogether loans on government securities, with the exception of exchequer bills. In addition to this, it is stated that the directors are prepared to advance the minimum rate of discount again, in case the existing rates prove insufficient to check the drain of gold. The effect of these measures will be not only to depreciate government stocks, but all other stocks dealt in, American securities with the rest.

How long this unnatural contest between the Bank of France struggling to maintain itself at any sacrifice, and the money markets of other countries comparatively in a healthy condition is a matter of mere speculation, although it is not difficult to foresee that a violent resort on must follow in the end. A crisis is evidently near at hand; many predict that suspension of specie payments by the Bank of France is inevitable, but if the story made current that the Rothschilds have contracted to furnish supplies of gold be correct it will be a harder and a longer struggle against the tide than is anticipated in such predictions.

It is beyond question, however, that the result of these money disturbances in Europe will be an increased stimulus to gold shipments from this country, and as the demand is felt in a reduction of our bank reserves, restrictive measures must be adopted.—Boston Journal.

A young man was sentenced in Pittsburgh, last Saturday, to six month's imprisonment in jail for assaulting another with "knuckles."— His counsel, previous to the passing of the sentence, solicited leniency for his client on the score of good character and gentlemanly conduct generally. The judge replied it was fortunate for him that he was not indicted for an attempt to murder, and said when people with gentlemanly culture and good character performed such deeds, he should punish them as rowdies and ruffians. "The first gentleman in the land shall fare no better than the poorest man."

It is said that Capt. Albert Pike of Arkansas recently gained a suit at law for which he gets the comfortable fee of $160,000. The case was an Indian claim to the value of $820,000 which he had been prosecuting for several years, upon the agreement that if he gained the suit he would be entitled to one half, if not, nothing. The suit was lately decided by the United States Supreme Court at Washington in favor of his clients.—Nashville Banner.

[Mr Pike is a native of Newburyport, where he was a school teacher, for some years before he emigrated to Little Rock in Arkansas.]

GREAT CHANGE IN THE COAST LINE. In 1742 an English ship stranded near Newcastle, Sunderland. Such have been the changes in the sea, that the wreck now lies in the midst of a cultivated field thirteen feet above the level of the sea, and around it are two thousand acres of cultivated land.

TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, a jar which we are labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and are filling full sized jars, which we legibly stamped on the glass, with their exact contents in quarts, enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from, and is entirely free from Vitriol or any other mineral acid; which is not the case with that used by most brands of English Pickles found in this country.

North Penobscot Agricultural Society.

The Annual Cattle Show and Fair of the North Penobscot Agricultural and Horticultural Society was held at Springfield Corner, on Wednesday and Saturday, Oct. 1st and 4th, and was well attended by the citizens of several Towns and Plantations in the vicinity.—Considering that the first day was very stormy the number of cattle and horses on exhibition was large and of good quality; and on the second day of the exhibition the ladies came forward with the products of their labor and skill filling the new Meeting-house (which was very kindly tendered to the Society for the occasion by the Rev. Mr. Emerson) with articles alike creditable to their taste and judgment.

At present writing, enjoyed the occasion highly—and it was agreed universally that the Fair should continue through two days.

1,000,000 BOTTLES SOLD!

Entered according to Act of Congress in the year 1855, by J. RUSSELL SPALDING, in the Clerk's Office of the District Court of the United States.

J. RUSSELL SPALDING'S

ROSE MARY

This great and popular preparation is decidedly one of the most important and successful in the world for the

HAIR!

It imparts a delightful and LASTING gloss, ornamentation, invigorates, enfeebled and shattered hair, relieves it dandruff, and has probably been used for nourishing and preventing the falling of more hair with as much success as any article ever known. If this alone, the test of time and use, and all can testify to it.

Professor Humphrey's SPECIFIC Homœopathic Medicines,

—FOR—

Families, Travellers, and others.

THESE Medicines have been carefully prepared, with a view of supplying families and others with *Specific Remedies* against all the ordinary common diseases which occur in every day life. The list includes most only Remedies for all the more common diseases, such as Colds, Coughs, Colics, Headaches, Derangements of the Stomach, Fevers, Worm Complaints, Diarrhœa, &c., &c. Also for those more sudden and violent diseases which require to be met on the spur of the moment, such as Gravel, Cholera Morbus, Inflammation, &c., for whom treatment it is very important always to have the proper remedies on hand. There are also remedies for those more delicate Female derangements which it is truly difficult to obtain, and a special feeling from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of Pocket Cases, each of which is sufficient for the ordinary use of a family, and can be carried in the pocket, and is properly labelled. Each box contains 30 or 40 Vials, and the boxes, for the different kinds, are enclosed in a case, accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, with a receipe-book for cooking, also containing four or six of the small boxes, or pockets, which may be supplied with any of the different kinds at the option of the purchaser.

The advantages of Specific Homœopathic Medicines—In ascribing to the Homœopathic Medicines a degree of twenty will be recommended for a cough, a headache, diarrhœa, or fever, and much care, study and discrimination is required to select the proper one; but before you have a Specific Remedy for each particular disease, and to enhance all to use it with benefit and confidence without the labor and study which the business man has to his wife to devote, and without that technical and education which, to the mother, nurse, or invalid, is so perplexing and unsatisfactory. The advantages are so obvious as to commend them to all.

Prepared by Dr. E. HUMPHREY, Ashfield, Mass., and sold by C. B. WALKER, Agent for Maine, at 3, Main street, Bangor.

This medicine speedily and effectually cures the most virulent forms of secret diseases, and eradicates every particle of infection, and frees the patient to a perfect state of *Health and Purity*, and no medicine which must sooner or later undermine the constitution, and cause disease, can be compared with this most salutary and innocent remedy. Numerous certificates of the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the virtues of these medicines and their superior efficacy over all other preparations for such complaints as the proprietor recommends. Numerous purchasers of Sarsaparilla and Buchu, and various kinds of nostrums have been given, all of which have failed, and will for decency to the study of proper remedies that must always be adopted.

The medicine requires no confinement or care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters and, in consequence, an exact regularity impossible to be made, and not infrequently made impure. Entrenched and totally inert, by the ignorance and unskillfulness of the compounder of those unacquainted with pharmaceutic preparations. It is, therefore, of the highest consideration of importance to the public, and to the faculty, that these concentrated preparations of uniform strength and possessing two great advantages. To effect this, and obviate the difficulties to have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most fortunately, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active Depurations which can be made. Two tablespoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equal in strength one gallon of Syrup Sarsaparilla or decoctions, as usually made.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach, Bilious Disorders and Liver Complaints,

DEPARTMENT OF THE INTERIOR,

WASHINGTON, D. C., Feb. 15th, 1854.

SIR:—I have used your Pills in my family, and in practice ever since you made them, and cannot but bear testimony to their wonderful virtues. Their regulating action on the liver is quick and decided, and for it they are the most reliable remedy for derangements of that organ. I believe I have not a relative (and they are many) or a friend who has not at some time had cause to use a cathartic medicine, to whom I have not given your Pills.

Fraternally yours, ALONZO BALL, M. D.,

Physician of the American Hospital.

Dysentery, Relax, and Worms.

PORT OFFICE, HARTFORD, CO., MISSISSIPPI, July 14, 1855.

DR. AYER: Your Pills are the perfection of purgatives. They have done my wife more good than I can tell you. She had been suffering many months, and was reduced to the last extremity, when she commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her bowels. They relieved her at once, and she is now in the enjoyment of blooming health. One of our neighbors had it bad, and was cured also with your Pills. Indeed, I have never known them to fail in any case of Worms, Dysentery, or Liver Complaint, that I have tried them in. Yours, &c., H. V. HUMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR:—I am using your Cathartic Pills in my practice, and find them to be the best cathartic we have. They operate kindly, and thoroughly purify the blood.

From the Reverend Alexander Fullerton, of Boston, Feb. 4, 1856.

DR. AYER: Your Pills are the paregoric of that that is present in Scrofula. They have cured my little daughter of Erysipelas, and I have no doubt that had proved fatal to her, but for your Pills. They have also relieved my mother-in-law, who had been troubled for years by a humor that would break out in blotches and pimples on her skin and in her mouth, and finally settle in her eyes, rendering her nearly blind. She has taken your Pills, and they have cured her.

HONORED SIR:—I could not be grateful for the relief your Pills afforded me, if I did not make it known. I had suffered severely with rheumatism, and had tried many remedies without relief, when I was induced to try your Pills, which I did, and was cured, and have since found your Pills my best friend. By recommending in the use of them I am now entirely well.

REV. WM. CRAKANE, BALTIMORE, CO., Md., Dec. 5, 1855.

DR. AYER: I have been entirely cured by your Pills of rheumatism, of which I suffered for years. Your Pills are the best medicine I have ever known.
